

The Banks are wanting to remove this list for them so they may sell there services to the consumer. Banks already ignore individual requests for not soliciting individuals.

For instance the "checks" that banks have sent out in the mail for transferring money. The banks "change" thier policy, and a new list needs to be created. At least that is the excuse that is given.

The "Do not call list" was set up to keep business from disturing the individuals.

If they want to call about a current problem, they should be able to. To call about a "NEW" service, or a service that the customer does not have, that should be illegal.

Please do not open up the law. The quiet phone after 5 pm has been nice.

Thank you.
